The volume of bus-iness transacted was not large.

Operations Wholly Professional.

The weakness was attributed to the impetus of the selling movement, which set in near the close of Saturday. These were no new developments in the general situation and declines were apparently the result of a feeling of general discouragement at the manner of the country than they are anywhere else in the civilized world. discouragement at the manner in which the speculation has been recently acting. The operations, however, were wholly professional.

Atchison common was sold down nearly 2 per cent on criticism of the new debenture bond issue, but a rally of nearly a point followed. Losses of about 1 per cent were general through the list, and in a few instances the declines went fur-

Prices tumbled without much intermission during the entire forenoon in the Stock Market and the afternoon started with no change in tone. The weakness of the market caused much disappointment and the Street generally was most gloomy over the outlook. Business was dull. however, and it was said that the declines were almost entirely due to professional selling.

The chief unpleasant feature of the market is that there has been little investment buying as a result of the January disbursements. The fact that the investors have kept out of the market influences sentiment generally and it has been whispered that some of the very profoundly disappointed over it.

Disquicting Rumors Unverified.

The news developments over Sunday were not of such a nature as to have any adverse influence on the market, but this merning there were one or two disquieting rumors. It was said that the price of copper will be cut another cent a pound, and there were hints that another bank failure may be announced at any time. Neither of these stories could be verified and it is possible that they were both manufactured by the bear

The dividend recor f this company has been a fine one, th rate never getting below 5 per cent in recent years, and being 7 per cent in the majority of years. BAD BLOOD,

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up manently the ugly blotches and the red.

of what Congress does a controversy has arisen that may require another prayer to

The newspaper reporters in the gallery The newspaper reporters in the gallery think he intended to pray for the shorthand reporters on the floor, who record the proceedings for the "Congressional Record." The shorthand men, on the other hand, feeling that they are not in a condition to need being prayed for, are sure that Dr. Milburn had in mind the newspaper men. Both sides have submitted arguments to the chaplain, and it is understood that he will construct a

prayer that will make it absolutely clear whether he thinks the "Congressional Record" reporters or the newspaper reporters generally, or all of them together, are the ones to be prayed for.

The discussion over this important matter has brought to light the fact that the chaplain's prayers are open to revision, when occasion demands, just as the speeches of Senators and Representatives are. In 1873 Dr. Sunderland, the next day found he had forgotten to say a word for Henry Wilson, the Vice President of the United States, so the official reporters, after a consultation with Dr. Sunderland, interpolated a nice little prayer for the Vice President.
